

30<sup>th</sup> June 2021

Dear Parents / Carers

Your child will be joining our Reception Class in September. We now need to put appropriate plans into place for school meals.

Every child automatically becomes entitled to a Universal Free School Meal provided by the Government, until the child starts in Year 3.

ISS Education provide catering services at the academy. Their mission is to feed hungry minds! Menus are created based on the principles of the Soil Association's Bronze Food for Life Catering Mark. The Food for Life Catering Mark criteria have been developed to reflect best practice in healthy and sustainable school food.

All our food is cooked freshly in school on a daily basis (Please see the menu which will be in use until October).

Each day your child can enjoy the following:

A choice of main meals

A choice of seasonal vegetables

A dessert, piece of fresh fruit or an organic yogurt

Access to the salad bar, crusty bread and drinking water

If your child will be entitled to a Free School Meal via financial benefits, please complete the form as school can get additional money for school use. Please return the form to Mrs Breedon in the school office.

If your child has any Special Dietary Requirements, please see Mrs Breedon for a Form.

Further Reception Transition Information will be available soon.

Yours sincerely

Lindsey Corbett  
Associate Principal
