Smart Rules

S - Keep **safe** online by not giving out personal information like you full name!

M - **Meeting** with someone online is dangerous because they may be alot older than you are!

**A** - **Accepting** emails can lead to many viruses such as a boot sector virus or a direct action virus!

R - **Reliable** information you can find may not be true like 70 News or Before It's News!

T - **Tell** your parent or guardian if someone is doing something that you do not like or something that makes you feel uncomfortable!

Top Tips
Here are 5 tips to staying safe online!

1) Don't post any personal information online – like your address, email address or mobile number.
2) Think carefully before posting pictures or videos of yourself. Once you've put a picture of yourself online most people can see it and may be able to download it, it's not just yours anymore.
3) Keep your privacy settings as high as possible
4) Never give out your passwords
5) Don't befriend people you don't know
